Accommodation (comprising 6 Suites and the Zindoga Villa, for a total of 18 guests) lies along a dry river bed, each room utterly secluded and surrounded by indigenous bush. The Gallery offers a lavish gift shop, safari boutique, local art display and wine cellar. A complimentary wireless network is available in public areas, suites and in the Zindoga Villa. Facilities include a dining room, lounge, open-air spa (Therapy Lapa), basic fitness centre and sauna, an outdoor boma with a view of Camp Jabulani's waterhole, and an expansive wooden deck in the shade of giant leadwood trees for al fresco dining. Gastronomic excellence is one of Camp Jabulani's core brand promises, and is just one of the distinctive features earning it Relais & Châteaux membership status.

ZINDOGA VILLA

The Zindoga Villa offers two luxury suites (one of which has an adjoining twin room with en suite bathroom, ideal for children) connected by a communal lounge and dining area. The double suites each comprise a massive bedroom (including additional day bed), with en-suite bathroom and glass enclosed shower, a private lounge area, a large expansive wooden deck and a private heated plunge pool. SERVICE HIGHLIGHTS

There is no fixed itinerary at Camp Jabulani, which instead offers a tailor-made experience according to its guests' specific interests. The hands-on management team personally welcomes guests to the lodge, and is available around the clock. Experienced rangers host guests on game drives and during bush walks for close sightings of predators and other iconic African species living wild. Camp Jabulani prides itself on exceptional cuisine (catering for all taste preferences and dietary requirements), combined with fine wines and a variety of dining venues, both indoors and outdoors.

UNIQUE ASPECTS

Camp Jabulani has set the benchmark for elephant interaction operations in South Africa. Of utmost importance is their focus on treating the elephants with care, respect and consideration. Today visitors have the exclusive opportunity to observe the herd in close proximity, learning more about their behavior, their unique character traits, their incredible story and what it takes to take care of them. Much of this takes place while the elephants are in their natural environment, foraging in the bush, walking through the reserve or swimming at the waterhole. Photographic opportunities with the elephants are also afforded. A visit to the Hoedspruit Endangered Species Centre offers a unique interaction with endangered species, while at the same time contributing to their conservation. Clients are able to foster an elephant from the herd or a rhino (victims of poaching), or to adopt a cheetah. In so doing, they assist with the ongoing care of that animal. Hot-air ballooning may be arranged for a spectacular early morning excursion. Helicopter flights, and golfing excursions are also available on request.
